

Module 2 Section A Task 1 [Image Files](#)

What is a vector image?

What do Vector image pixels look like?

You could draw one =====>

What is a bitmap image?

What do Bitmap image pixels look like?

You could draw one =====>

What would you use the different formats for? And what is the difference in the file memory size?

Which of the two formats would be best for a 1 metre wide by 0.5 metre tall printed sticker? And why?

What format would use for a small logo on a website and why would this be a good choice?

Module 3 Section A Task 3 Ecommerce and making money from websites

You need to think of the websites that you could make money from. Think about physical items, digital items and websites offering services such as window clean etc...What information would you need to include on each website and what would the site map look like?
