

Task 5 Skincare Contra-indications

Your task is to investigate contra-indications relevant to skincare.

A contra-indication is defined as a medical condition that may restrict (limit) or prevent (stop) a treatment being carried out. Being able to identify contra-indications is very important as a beauty therapist as you don't want to hurt your client or pass on any contagious conditions to other clients.

Type into Google "Skincare contra-indications". Create a document that identifies contra-indications and states whether they are contagious or not. Use the title 'Skincare Contra-indications' for your document. I have put an example of how you could display your information below:

Skincare Contra-indications

Contagious	Non-contagious

If you are struggling with any aspect of these tasks please email hairandbeauty@kingsmead.derby.sch.uk and I will get back to you. Once you have completed your work please email it to me. If you have completed the task on paper, take a picture of it and email it to the above address and I will give you feedback. Thank you, Kate. 😊
