

Engineered Racing – a note from Adrian your tutor:

As a footnote, for those petrol heads amongst your cohort, I cannot recommend highly enough the new series of 'Wheeler Dealers' – Ant Anstead the 'New' Edd China really is an excellent educator and provides a truly engaging experience, some of his impromptu explanations of 'How Things Work' are fantastic.

Here's a link to The discovery Channel where those interested can pick by episode or indeed the vehicle of particular interest <https://www.discoveryuk.com/series/wheeler-dealers/> **NB. Other TV motor shows are available.**
